

**Summary of Genetic Information Nondiscrimination Act of 2008 (GINA)
Public Law 110-233**

Title II: Genetic Nondiscrimination in Employment

Provision	Summary	Comments
<p>Section 201</p> <p>Definitions</p>	<p><u>Commission</u>—means Equal Employment Opportunity Commission</p> <p><u>Employee</u> – means an employee (including an applicant) as defined by</p> <p>a) Section 701(f) and 717(a) of the Civil Rights Act of 1964</p> <p>b) Section 304(a) of the Government Employee Rights Act of 1991 (State employees)</p> <p>c) Section 101 of the Congressional Accountability Act of 1995 (Covered employee)</p> <p>d) Section 411(c) of title 3, U.S.C (Covered employee)</p> <p><u>Employer</u> – means an employer as defined by</p> <p>a) Section 701(b) and 717(a) of the Civil Rights Act of 1964</p> <p>b) Section 304(a) of the Government Employee Rights Act of 1991 (State entity employing state employee)</p> <p>c) Section 101 of the Congressional Accountability Act of 1995 (Employing Office)</p> <p>d) Section 411(c) of title 3, U.S.C (Employing Office)</p> <p><u>Employment Agency; Labor Organization</u> – meanings as defined by Section 701 of the Civil Rights Act of 1964 (member of labor organization includes applicant for membership)</p> <p><u>Family Member</u> – with respect to an individual includes a dependent and any other first-degree, second-degree, third-degree, or fourth-degree relative of such individual or their dependent.</p> <p><u>Genetic Information</u> – means with respect to any individual information about such individual's genetic tests, the genetic tests of family members of such individual, and the manifestation of a disease or disorder in family members of such individual. It shall also include, with respect to any individual, any request for or receipt of genetic services or participation in clinical research, which includes genetic services by such individual or any family member of such individual. It shall not include information about the sex or age of any individual.</p> <p><u>Genetic Monitoring</u> – means the examination of employees to evaluate acquired modifications to their genetic material (such as chromosomal damage or evidence of increased occurrence of mutations) that may have developed as the result of exposure to toxic substances in the workplace in order to identify, evaluate, and respond to the effects of or control adverse environmental exposure in the workplace.</p> <p><u>Genetic Services</u> – means a genetic test, genetic counseling (inc. obtaining, interpreting, or assessing genetic information), and genetic education.</p> <p><u>Genetic Test</u> – means an analysis of human DNA, RNA,</p>	<p>Definitions are consistent with existing civil rights laws</p> <p>Employee means any individual employed by an employer</p> <p>Employer means a person engaged in an industry affecting interstate commerce who has 15 or more employees</p> <p>Employment Agency—means any person regularly undertaking with or without compensation to procure employees for an employer</p> <p>Same def. as Title I: inc. siblings, parents, children, aunts/uncles, grandparents, grandchildren, cousins, great grandparents and cousins once removed</p> <p>Definition includes family history which could be used to identify genetic information. Most state employment statutes limit their protections to the results of genetic tests only</p>

Provision	Summary	Comments
	chromosomes, proteins, or metabolites, that detects genotypes, mutations, or chromosomal changes. It does mean such analyses that do not detect genotypes, mutations, or chromosomal changes.	
<p>Section 202</p> <p>Employer Practices</p>	<p><u>DISCRIMINATION BASED ON GENETIC INFORMATION</u></p> <p>It shall be an unlawful employment practice for an employer to refuse to hire, or to discharge, any employee, or otherwise to discriminate against any employee with respect to the compensation, terms, conditions, or privileges of employment of the employee, because of genetic information with respect to the employee; or to limit, segregate, or classify the employees of the employer in any way that would deprive or tend to deprive any employee of employment opportunities or otherwise adversely affect the status of the employee as an employee because of genetic information with respect to the employee.</p> <p><u>ACQUISITION OF GENETIC INFORMATION</u></p> <p>It shall be an unlawful employment practice for an employer to request, require, or purchase genetic information with respect to an employee or family member of an employee except</p> <p>a) Where an employer inadvertently requests or requires family medical history of the employee or family member of the employee.</p> <p>b) Where health or genetic services are offered by the employer, including such services offered as part of a wellness program; the employee provides prior, knowing, voluntary, and written authorization; only the employee (or family member if the family member is receiving genetic services) and the licensed health care professional or board certified genetic counselor involved in providing such services receive individually identifiable information concerning the results of such services and such information is only available for such services; and such information shall not be disclosed to the employer except in</p>	<p>The prohibitions for employers cover the entire range of ways in which an employee could claim discrimination, from hiring decisions to employee status</p> <p>Subject to the below exceptions, this is a total ban that will affect an employer's ability to access such information, even in cases where the ADA would have permitted it as part of a request for reasonable accommodation or as part of a medical evaluation after a conditional offer of employment has been made. This prohibition applies even in cases where the information may be job related.</p> <p>This provision is meant to address so called "water cooler" conversations, where an employee might voluntarily disclose genetic info to the employer in the course of an otherwise innocent interaction. This exception applies only to family history, not to all forms of genetic information</p> <p>Many employer wellness programs begin with some form of health questionnaire. Specific authorization from the employee will be required to be in compliance.</p>

Provision	Summary	Comments
	<p>aggregate terms that do not disclose the identity of any specific employee.</p> <p>c) Where an employer requires family medical history from the employee to comply with the certification provisions of Section 103 of the FMLA or such requirement under State family and medical leave laws.</p> <p>d) Where an employer purchases documents that are commercially and publicly available (inc. newspapers, magazines and books, but not including medical databases or court records) that include family medical history.</p> <p>e) Where the information involved is to be used for the genetic monitoring of the biological effects of toxic substances in the workplace, but only if: the employer provides written notice to the employee, the employee provides prior, knowing, voluntary and written authorization or the genetic monitoring is required by Federal or State law, the employee is informed of the individual monitoring results, the monitoring is in compliance with Federal genetic monitoring regulations inc. those promulgated by the Secretary of Labor or State regulations under OSHA, the Federal Mine Safety and Health Act or the Atomic Energy Act, and the employer (excluding any licensed health care professional or board certified genetic counselor) receives the results of the monitoring only in aggregate terms that do not disclose the identity of the individual employee.</p> <p>f) Where the employer conducts DNA analysis for law enforcement purposes as a forensic laboratory or for purposes of human remains identification, and requests or requires genetic information of such employer's employees, but only to the extent that such genetic information is used for analysis of DNA identification markers for quality control to determine sample contamination.</p> <p><u>Preservation of Protections</u> – In the event genetic information is acquired as a result of any of these exceptions it may not be used to discriminate, for any use leading to additional acquisitions of genetic information is subject to limitations on disclosure (sec. 206).</p>	<p>An employer may require that a request for leave be supported by a certification issued by the health care provider</p> <p>This exception applies only to family history, not to all forms of genetic information</p> <p>Some employers conduct genetic tests of workers in specific hazardous environments to determine if there is a hazardous breach or if workers need to be reassigned before they become symptomatic of adverse exposure. An employee cannot be required to submit to such testing but could likely be reassigned if the cost to the employee was not so high as to render his possible change of mind involuntary. Nevertheless, employment cannot be denied because of increased occupational risk. This provision does not affect employees with a current medical condition.</p>
<p>Section 203</p> <p>Employment Agency Practices</p>	<p>Identical to Section 202</p>	
<p>Section 204</p>	<p>Identical to Section 202</p>

Provision	Summary	Comments
Labor Organization Practices		
Section 205 Training Programs	Applies to employers, labor organizations, or joint labor-management committees controlling apprenticeship or other training or retraining programs, inc. on-the-job training programs. Identical to Section 202	
Section 206 Confidentiality of Genetic Information	<p align="center"><u>TREATMENT OF INFORMATION AS PART OF CONFIDENTIAL MEDICAL RECORD</u></p> <p>If an employer, employment agency, labor organization, or joint labor-management committee possesses genetic info about an employee or member, such information shall be maintained on separate forms and in separate files and be treated as a confidential medical record. Such entities shall be considered to be in compliance with this requirement if such info is maintained with and treated as a confidential medical record under section 102(d)(3)(B) of the Americans with Disabilities Act.</p> <p><u>LIMITATION ON DISCLOSURE</u></p> <p>An employer, employment agency, labor organization, or joint labor-management committee shall not disclose genetic information concerning an employee or member except:</p> <ul style="list-style-type: none"> a) To the employee or member (or family member if the family member is receiving the genetic services) at the written request of the employee or member of such organization. b) To an occupational or health researcher if such research is conducted in compliance with part 46 of Title 45, Code of Federal Regulations. c) In response to a court order, except that- <ul style="list-style-type: none"> 1. Covered entities may only disclose the genetic info expressly authorized by the order. 2. If the court order was secured without the knowledge of the employee or member to whom the information refers, covered entities shall inform the employee or member of the court order and any genetic info that was disclosed pursuant to such. d) To government officials who are investigating compliance with this title if such information is relevant to the investigation. e) To the extent disclosure is made in connection with the employee's compliance with the certification provisions of Section 103 of the FMLA or such requirement under State family and medical leave laws. f) To a Federal, State, or local public health agency only with regard to information about the manifestation of a disease or disorder in family members of such individual and that concerns a contagious disease that presents an imminent hazard of death or life-threatening illness and the employee whose family member is the subject of such disclosure is notified of the disclosure. 	<p>GINA does not require employers to keep separate medical files solely for genetic information. Rather, genetic information can be maintained with general health information, and the confidentiality of the aggregate is governed by HIPAA.</p> <p>GINA does not permit disclosure of genetic information in response to a subpoena or discovery request.</p> <p>An employer may require that a request for leave be supported by a certification issued by the health care provider</p>

	<p>Leaders, Chairman and ranking minority member of the Senate</p> <p>HELP Committee, Speaker and Minority Leaders of the House of Representatives, Chairman and ranking minority member of the Education And Labor Committee. These members shall not receive compensation but shall be allowed travel expenses, inc. per diem, while away from their homes or regular place of business in performance of Commission duties in accordance with subchapter I, chapter 57 of title 5 USC.</p> <p>c) The Commission shall be located in a facility maintained by the EEOC and such sums are authorized to be appropriated to the EEOC as necessary to carry out this section. Any Federal employee may be detailed to the Commission without reimbursement or loss of civil status. The Commission may secure such information as necessary to carry out the provisions of this section and the head of such departments shall furnish such information that is requested. The Commission may hold hearings, take testimony and receive evidence as the Commission requires to carry out its duties. To the extent possible, the Commission shall use existing data and research and may use US mail under the same conditions as other Federal agencies.</p> <p>d) No later than one year after all the members are appointed to the Commission they shall submit to Congress a report that summarizes their findings and makes recommendations for legislation consistent with this Act.</p>	<p>application or effect</p>
<p>Section 209</p> <p>Construction</p>	<p>Nothing in this title shall be construed to –</p> <p>a) Limit the rights or protections of an individual under any other Federal or State statute that provides equal or greater protection to an individual than is provided under this Act, inc. the Americans with Disabilities Act and the Rehabilitation Act of 1973.</p> <p>b) Limit the rights or protections of an individual to bring an action under this title for a violation; or provide for enforcement of, or penalties for, a violation of any requirement or prohibition applicable to any covered entity subject to enforcement for a violation under Title I of this Act.</p> <p>c) Apply to the Armed Forces Repository of Specimen Samples for the Identification of Remains.</p> <p>d) Limit or expand protections or obligations under worker's compensation laws.</p> <p>e) Limit the authority of a Federal department or agency to conduct occupational or other health research in compliance with part 46 of title 45, Code of Federal Regulations (or corresponding</p>	<p>This is the so-called firewall provision of GINA. It prevents claims originating from adverse actions under Title I (health insurance) from being used as the basis of a claim against an employer. It is likely, though, that directed actions taken by an employer implicating health insurance would remain actionable under this title.</p>
